

FORENSIC IMAGING TRAINING

The National Center for Missing & Exploited Children in cooperation with the University of South Florida are offering a 40 hour training course in forensic imaging techniques.

This course is offered at no cost to qualified law enforcement forensic artists.

■ **Course will be held March 13th - 17th, 2017**

Participants in this course can expect to learn invaluable forensic imaging techniques proven successful by experienced forensic artists. Students will work on actual unidentified deceased cases and be able to compare their work with the deceased image. Students will also learn photographic manipulation techniques applicable in today's law enforcement arena. This course is taught using Adobe Photoshop. Prospective students should possess some artistic talent and knowledge of Photoshop is strongly encouraged.

■ CURRICULUM:

- Photographic manipulation
- Facial reconstruction techniques
- Age regression
- Adult age progression
- Photo repair

Students are responsible for all costs related to attending this course.

■ CONTACTS: **Erin H. Kimmerle, Ph.D.**
